

**T**eachers and trainers need more than email and PowerPoint skills!

## The Professional Development Reality\*:

- The Standards for RTOs 2025 explicitly require ongoing professional development focused on learner engagement and contemporary teaching practices.
- 45% of C-suite leaders have only 'basic' digital capabilities - yet they're making decisions about educational technology investments.
- 95% of occupations could be augmented by emerging technologies, yet RTOs struggle to deliver professional development that actually prepares trainers for this rapidly evolving EdTech landscape.

The *Educator Capability Licence* transforms your professional development from compliance checkbox to competitive advantage. Purpose-built for educators, by educators, it delivers the contemporary digital teaching skills that the Standards for RTOs 2025 actually require.

## Why Your Trainers Need This Professional Development:

- **Meet Compliance Requirements**  
Contemporary teaching practices and learner engagement strategies
- **Future-Ready Educators**  
AI, emerging technology, and digital pedagogy skills that matter
- **Reduce Training Overhead**  
Self-paced professional development that fits busy schedules

*Stop scrambling to meet professional development requirements. Give your trainers the contemporary digital teaching skills that the Standards for RTOs 2025 demand - and students deserve.*
